1. Enter sail numbers only in this result sheet - not skippers name or boat name if possible
2. Record results for the same number of boats in all races. ie if after 3 races another boat enters - score that boat as a DNS in the first 3 races. Similarly for boats not finishing a race (DNF), missing a race (DNS), going home early (DNS), or disqualified in a race (DSQ) .
3. Enter below details for all non club members, new club members, and club members with a new sail No.

SKIPPERS NAME	SAIL No.	BOAT NAME	CLUB MEMBER Y/N

Email the results to :- kkeith@iconz.co.nz

**PREFERED METHOD :**

Scan the result sheet and attach the output to the email

**OTHERWISE :**

Open whatever you use to write letters in.

Write the results for each race in finishing order in one line across the page using the example below.

ie: For 3 races with five boats entered, the input should look like this \_

72:68:76:82:75 DNF  
76:68:82:75:72 DNS  
68:75:76:72 DSQ:82 DNF

**NOTE**

- Between each sail number there is a colon
- DNF's DNS's & DSQ's to come after the sail no. concerned, with just a space between the two

Separately below the results record - "skippers name/sail No./boat name/club member y/n" - for all non club members, new club members and any club member with a new sail No.

Record the OOD for the day

Nothing else is needed - save this and attach it to the email.

Keep the result sheet safe.
